8/8: Added report on methylene glycol and revised comment-discussion piece from Ravi (below). Again I'll be calling in from home today. I'm on another call that's scheduled 10-11 but have told the organizer that I will sign off that at 10:55.

8/6: Attaching materials for discussion, as I have them now. I've put comments on the combined-comment piece, primarily to indicate items we discussed to some extent on Monday, and that I *\*think\** we were pretty much done with. So I think the remaining material is manageable. The 'FA-ADME Discussion Points' is from Sury.

For Thurs, Aug 8, I am adding Formaldehyde TR authors/managers as we will use this meeting time to continue those discussions. Looking ahead, I think we've already covered a number of points that appeared (again) later in the 'comments' piece. I'll work with Ravi to cull the list to make best use of this time.

Other PKWG folk, not involved in the formaldehyde review, can skip this weeks meeting!

Materials will be attached later.

Per our discussion this morning (July 11, 2013), we are going to weekly meetings (11 am - noon each Thursday) for the time being. I've set these to go through next June but we can change future occurrences as needed.

RTP folks can meet in B230. Separate emails will provide agenda and other materials.
